

## Pump-Spray Bottles

### For the use of LIQUI MOLY cleaning products

LIQUI MOLY pump-spray bottles with hand pump can be used for several chemicals. They enable the professional and efficient use of our cleaning products. They are also ideally suited for the processing of products that are purchased in larger containers.

The all-rounder

The specialist for acid

### Pump-spray bottle (not acid-resistant)

Part no. 3316

#### Properties

- outstanding chemical resistance
- simple to use
- capacity: 1 l
- Viton sealing material
- maximum operating pressure 3 bar
- large filler opening for convenient filling
- adjustable hollow cone nozzle
- powerful pressure pump

**Important: For safety reasons, no products containing acid can be processed with this pump-spray bottle!**

**Not suitable for Acid Rim Cleaner!**

### Acid-resistant pump-spray bottle

Part no. 29032

#### Properties

- outstanding chemical resistance
- simple to use
- capacity: 1.25 l
- EDPM/Viton sealing material
- maximum operating pressure 3 bar
- large filler opening for convenient filling
- safety valve
- adjustable hollow cone nozzle
- powerful pressure pump

**Not suitable for cleaners containing solvents, such as Rapid Cleaner!**

# Technical information
